

**DETROIT FIRE
INVESTIGATION DIVISION
FIRE INVESTIGATION
TRAINING
PRACTICAL APPLICATION AND
HANDS ON EXPERIENCE
April 21-25, 2025
April 28-May 2, 2025**

This seminar is designed to give new investigators basic skills needed to conduct thorough fire origin and cause investigations and provide practical experience at actual fire scenes with the most experienced fire investigators in the state.

Week one is a forty hour course consisting of tested training & practical application in the field.

Week two reinforces the previous week's studies allowing the investigator to gather additional hands on experience and knowledge on more advanced subject matter relating to fire investigation.

This seminar is intended for service professionals who have a foundational understanding of fire science and familiarity with NFPA 921 and NFPA 1033. This seminar is not intended to certify attendees in fire investigation.
